

I Love You So

Johnny Burnette

My dear, I love you so
I'll never let you go
'Cause deep inside I know,
I-I-I love you so
(Love you so, love you so)

If you would say "I do",
the dreams I hold for you
I know would all come true,
I-I-I love you so
(Doo-doo-doo-wop, doo-doo-doo-wop)

To me you're just everything,
The sun, the moon above
To me only you can bring,
Happiness and love

Though years may come and go
And things will change I know
My need for you will grow,
I-I-I love you so
(Doo-doo--doo-wop, doo-doo-doo-wop)

To me you're just everything,
The sun, the moon above
To me only you can bring,
Happiness and love

Though years may come and go
And things will change I know
My need for you will grow,
I-I-I love you so
(love you so)
