

Down The Road I Go

Johnny Cash

I guess there's not much I can do or say
I saw my baby with another guy today
Though I love her and I tried to tell her
so it's hello blues and down the road I go
I've never seen that guy before today
he held my baby in the closest way
And the way she snuggled close to him
I know it's hello blues and down the road I go

Well it seems our thoughts were much alike
our likes were much the same
We even had our future plan till
into town he came
I've never seen that guy...
[piano]
Well it seems our thoughts...
