

Good Morning Friend

Johnny Cash

He's not on some golden throne way off and out of space
He's not hidin' out in some big secret hidin' place
I can guarantee he'll be your friend to touch and hold
And I'm qualified to tell it cause I've got it in control

Good morning friend good morning friend
Every day's a brand new morning since the morning you will din
Good morning friend good morning friend
Yes I'm feeling like a million since I've got you livin' in

He'll stand and knock upon your door do you let him inside
He'll be a constant comforter and keep you satisfied
He will make himself available no matter who you are
He'll light your darkest night and be your bright and morning s
tar

Good morning friend good morning friend
Yes I'm feeling like a million since the morning you moved in
Good morning friend good morning friend
Ask me how I feel this morning and I'm proud to say again
Good morning friend good morning friend
Yes I'm feeling like a million since I've got you livin' in
