

# Happiness Is You

Johnny Cash

Way down the mountain I chased a moonbeam  
On the beach I built sand castles too  
My moonbeams faded my castles tumbled  
All of this was meaningless cause happiness is you

No more chasing moonbeams or catching falling stars  
I know now my pot of gold is anywhere you are  
My heart won't miss you my heart goes with you  
Loneliness is emptiness but happiness is you

I tried to doubt you and live without you  
Tried to deny but I love you like a do  
But I realize now and I'll admit it  
You'll always be a part of me cause happiness is you

No more chasing moonbeams or catching falling stars  
I know now my pot of gold is anywhere you are  
My heart won't miss you my heart goes with you  
Loneliness is emptiness but happiness is you
