

## Happy to Be With You

Johnny Cash

Happy to be with you happy to be with you  
Happy to be with you bound to follow you  
Somewhere someone above sends you to me for me to love  
Hearts can tremble and shake hearts can shutter and break  
I give more than I take cause I'm happy to be with you  
Happy to be with you happy to be with you  
Good times outweigh the bad count the good ones we've had  
We have our ups and downs but the good times come around  
Nickels and pennies are few don't have a fortune for you  
Love you yes I do and I'm happy to be with you  
Happy to be with you happy to be with you
