

# I Will Rock And Roll With You

Johnny Cash

They used to call me Rockabilly  
All of us ran through  
When Elvis opened up the door  
With a pup-and-pup-and-boo

I didn't ever play much rock and roll  
'Cause I got so much country in my soul  
But I'm a different man for lovin' you  
And I take a shot at what you ask me to

And baby I will rock and roll with you  
If I have to

Memphis 1955 on Newton Avenue  
Carl and Jerry and Charlie and Roy  
And Billy Riley too

A new sun risin' on the way we sing  
And a world of weirdo's waitin' in the wings  
But I love you and though I'm past 42  
There are still a few things yet I didn't do

And baby I will rock and roll with you  
If I have to
