It Could Be You

Johnny Cash

If you should meet some lonely soul Who on this earth can't reach his gold And he's travelin' down the road so dark and dim

Lend the hand, say a prayer Give a smile that he might share But for the grace of God it could be you instead of him (But for the grace of God it could be you instead of him)

Befriend each stranger in the night Help to make his burdens light Lift up the fallin' ones and be a friend (Be a friend)

Shed a tear, share a sight Share his fears don't pass him by But for the grace of God it could be you instead of him (It could be you instead of him)

Shed a tear, share a sigh Share his fears don't pass him by But for the grace of God it could be you instead of him (It could be you instead of him)
