Thirteen

Johnny Cash

1. Bad luck wind been blowin' at my back
   I was born to bring trouble to wherever I'm at
   Got the number thirteen tattooed on my neck
   When the ink starts to itch, then the black will turn to red

R: I was born in the soul of misery
   Never had me a name
   They just gave me the number when I was young

2. Got a long line of heartache, I carry it well
   The list of lives I've broken reach from here to hell
   Bad luck wind been blowin' at my back
   I pray you don't look at me, I pray I don't look back

R: I was born in the soul of misery... (2x)

   They just gave me the number when I was young
