

## You Beat All I Ever Saw

Johnny Cash

I've walked though every town  
Saw fortunes lost and found  
And when your trail failed i walked holes  
In both my soles  
But i don't expect you back  
You're somewhere making tracks  
I crossed the burning bridges  
And walked through miles of sand  
Met the lawless and the law  
But you beat all i ever saw

I dreamed a million miles  
About your eyes and smiles  
I tried to love the best  
And to turn from all the rest  
But i'd scan the skies for you  
And i only saw your hue  
They drew away your mould  
You were made of frozen gold  
And your heart would never thaw  
You beat all i ever saw
