

Kentucky Pill

Johnny Flynn

The Kentucky pill
And a cow tipping expedition
And I've seen a fuller moon
Swinging wotton premonition

Did ya ever expect to have more fame than this or that?
Cause there's beleiveing
and theirs taking off your hat
And there's reading and there's reading this or that

I'm running for my old playmates
I'm running through the town
I'm running with a gun
Thats gonna shoot my playmates down

Did you punch all those clocks?
Did you seal up those time bandits?
If you're playing on the swings
You cant be in the sand pit

I lied to you when you wore those other clothes

I was into your thinking
Where can I get one of thoses?
I woulda picked your brains
I would paid you through the nose

I'm running for my old playmates
I'm running through the town
I'm running with a gun
Thats gonna shoot my playmates down

I am running
Oh I'm running
Oh oh yes im running
Oh I'm running
Oh oh oh

And the girls that you see
Their all faster than a train
You see the same girl
But, you wont see that face again

Left the changes down to
fate and happen stance
Picked a view point
Oh and how my girl can dance

Followed empty
Realized she was watering the plants

I'm running for my old playmates
I'm running through the town
I'm running with a gun
Thats gonna shoot my playmates down

I am running

Oh I'm running
Oh oh yes im running
Oh I'm running
Oh oh oh
