

Listen

Johnny Hates Jazz

Cold by day, cold by night
I wonder where the summer's gone
Make no mistake, no mistake
I've got to find you

Well you can tell all your friends
That you've found a way
Go tell them all that you've come to stay

Just to listen, just to listen
Just to listen to your heart

Take your chances
Take your time
Let's take a slow dance out of here
Now I know, now I'm sure
I'm flying tonight

Well you can tell all your friends
That you've found a way
Go tell them all that I'm here to stay

Oh no

Hot by day, warm by night
I wonder where the winter's gone
There's no mistake, no mistake
We feel the same way

Well you can tell all your friends
That you've found a way
Go tell them all you're here to stay
