

The State Of Play

Johnny Hates Jazz

There is a choice to be made here
There is a will to be known
Either you live your own life or
Follow wherever I go

Nothing's forever
And maybe I'll lonely cause you pain
Nothing's forever
Or will we remain?

So tell me what's the state of play
Do I leave or do I stay
Tell me what's the state of play
Do you love, do you
love, do you love me?

Tell me your darkest of secrets
Offer no thread of a lie
For if there's a key to the future
You're looking him right in the eyes

Nothing's forever
And time always changes everything
Nothing's forever
From pauper to king

Do I leave or do I stay
Nothing's forever,
forever, forever, forever
Forever and ever
