

# Everytime I'm Kissing You

Johnny Horton

I came home and I found you in the arms of a friend  
Why didn't I leave you when I saw you kissin' him  
You ask me to forgive you and you try to make amens  
But everytime I'm kissing you I think of you kissing him  
You said it didn't mean a thing you even said I was to blame  
You said forget let's start anew I make amens and I'll be true  
But you don't know the harm you've done even though it was in f  
un  
Cause everytime I'm kissing you I think of you kissing him  
[ guitar ]  
You said it didn't mean a thing...
