

She Knows Why

Johnny Horton

I have a story I'd like to tell
broken heart's knowin' only too
well
And she knows why I feel the way I do
She gave me all her love and then she took it away
blue sky has
turned to a solid grey
And she knows why I feel the way I do
Well I know I'm a walkin' down the lovesick trails
been walked
down by many before
But when she sees my side of tracks she'll know
I've learned the
score
I'll pick my tears put 'em on the shelf
keep my heartaches to myself
Cause she'll know why I feel the way I do
[guitar]
When she finds somebody new then he'll find out
what I went through
Cause she knows why I feel the way I do
She gave me her love and then she took it away
blue skies had
turned to a solid grey
And she knows why I feel the way I do
Well I know I'm a walkin'...
