

## Word Starts Attack

Johnny Marr

(Verse)

Days of no reason are up on us  
Caught the ways to rage on us,  
All the things that the new are promised  
Has made things that are not for us.  
Make me wonder was it refer  
Makes me wonder was it worth it?  
The star stays, smash some mirrors.

(Chorus)

Words strike on fast  
Words strike on fast  
World start as a crack,  
We'll start an attack.

(Verse)

Communication was on it,  
I don't want to get to  
All the things that the new are promised  
Has made things that are not for us  
The star stays, smash some mirrors.

(Bridge)

And I get out of this  
And I get out of this  
And I get out of this  
And I get out.  
And I get out of this,  
And I get out of this.  
And I get out of this,  
And I get out of this,  
And I get out of this,  
And I get out of this,  
And I get out of this,  
And I get out of this,  
And I get out of this.
