Deep Purple

Johnny Mathis

Mother natures been good to me
Thats why I'm sittin' in this cherry tree
But it's alright, it's alright
It's not so bad, I'm just a touch away

The shady lady from shady lane
Is lying in my bed again and it's alright
It feels good, it's not so bad
When she's just a touch away

Nothing much is all I ask And it's alright, okay, yes Light as a feather, oh, yes

Like a rosebud when the sun is high She opens up before my eyes And the light falls on her wet skin It's alright, I'm just a touch away

Nothing much is all I know And it's alright, oh, yes Light as a feather And just a touch away

Put a finger to her lips again She cries with pleasure Cries with pain and it's alright It feels good, it's not so bad We're just a touch away

Nothing much is all I know Not too fast, not too slow And it's alright, soft as a feather And just a touch away
