## **Forget Me Not**

**Johnny Mathis** 

I've been awaiting for you And you've been awaiting for me Tell me that you'll always be true And you'll be the only one for me Forget me not my dear, my darling Forget me not my love I just wanna hold your hand Hang on every word you say Let's write a song for us And sing until we're old and grey Forget me not my dear, my darling Forget me not my love I'm coming home real soon Please leave a light on for me Tell me that you'll always be true And you'll be the only one for me Yes, you'll be the only one for me
