

## I'll Be Easy to Find

Johnny Mathis

I'll be easy to find  
When love comes looking for me  
I'll stand there with my arms out  
So that I'll be easy to see  
No hide and seek,  
No guessing games will I play  
When love comes in to speak my name  
I'll say, "Right this way"  
The stars may fall from above  
The moon may fade out of sight  
But angels will be smiling  
And my love will light up the night  
Though fools may hide their feelings  
And tell us love is blind  
As for me, I'll be easy to find

No hide and seek,  
No guessing games will I play  
When love comes in to speak my name  
I'll say, "Right this way"  
The stars may fall from above  
The moon may fade out of sight  
But angels will be smiling  
And my love will light up the night  
Though fools may hide their feelings  
And tell us love is blind  
As for me, I'll be easy to find
