

# I'll Make You Happy

Johnny Mathis

I've got something I like to tell you  
I've been hooked on love since the day I found you  
You're the one for me and I know it  
Let's stop playing games long enough to show it  
We'll know it  
If you just let me love you for a little while  
I'll make you happy  
So happy  
If you just let me love you for a little while  
I'll make you happy

I'll build up a fortress around you  
You'll be queen and I'll be the king forever  
Just the two of us in a love nest  
Watching all the people that made us happy  
So happy  
If you just let me love you for a little while  
I'll make you happy  
So happy  
If you just let me love you for a little while  
I'll make you happy

I'm just a man shooting for the moon  
When I might land amongst the stars  
This old heart is a gift to you  
You're my one and only  
Please don't leave lonely

There's no substitute for the real thing  
You deserve the best of the world  
Around you  
I'll be everything that you dream of  
You and I together for now and ever  
(Forever)  
If you just let me love you for a little while  
I'll make you happy  
So happy  
If you just let me love you for a little while  
I'll make you happy

(I'll make you so happy, so happy baby)  
(I'll make you so happy, so happy baby)  
I'll make you happy, so happy baby  
(I'll make you so happy, so happy baby)  
I'll make you so happy, so happy baby

(I'll make you so happy, so happy baby)  
(I'll make you so happy, so happy baby)  
(I'll make you so happy, so happy baby)  
I'll make you so happy, so happy baby

(I'll make you so happy, so happy baby)  
I'll make you so happy, so happy baby  
(I'll make you so happy, so happy baby)...
