

I'm Just a Boy in Love

Johnny Mathis

I'm just a boy in love
For the first time, and the last time
I'm just a boy in love, feel like I walk on air
Things around me just astound me
Feel like I walk on air

And that night, you smiled at me
Such a night, there'll never be
I'm just a boy in love
Life is new now, dreams come true now
And I'll always be a boy in love

And that night, you smiled at me
Such a night, there'll never ever be
I'm just a boy in love
Life is new now, dreams come true now
I have you now and I'll always be a boy in love
