Nobody Knows (How Much I Love You)

Johnny Mathis

I was on a street with a common name
I prayed for love, yeah, I even begged
I had a vision of you, that carried me through

Now it's just magic worlds in a shaman's dream I fear no man, I fear no pain I had a vision of you that carried me through

And nobody really knows what I would do for you Nobody really knows how much I love you Nobody really knows, nobody knows
Nobody knows, nobody knows

I cleared my mind and I turned around
Grateful to the one who had laid me down
I was silent in love pourin' down from above

Like so much rain it fell and pierced my brains
The trees all alive with their colors like the dreams of man
I had a vision of you that carried me through

And nobody really knows what I would do for you now Nobody really knows how much I love you, baby Nobody really knows, nobody knows
Nobody knows, nobody knows, yeah

I was on a street, yeah, with a common name I prayed for love, oh baby, I even begged I had a vision of you that carried me through

And nobody really knows what I would do for you Nobody really knows how much I love you Nobody really knows, nobody knows
Nobody knows, nobody knows
Nobody knows, nobody knows, yeah

Nobody knows, nobody knows, oh Nobody knows how much I love you Nobody knows how much I Just what I'd, just what I'd do Just how much, just how much, baby
