

# Someone

Johnny Mathis

Someone really love you guess who  
Someone really needs you guess why  
Someone wants to kiss you  
And hold you tight  
Someone wants to love you each and every night  
Someone wants to say hello  
I know he'll never let you go

When he looks into your eyes  
I know that you will realize  
And guess just who that someone must be  
I know you'll know that someone is me

Someone wants to kiss you  
And hold you tight  
Someone wants to love you each and every night

Someone wants to say hello  
I know he'll never let you go

When he looks into your eyes  
I know that you will realize  
And guess just who that someone must be  
I know you'll know that someone  
I know you'll know that someone is me
