

# Why Goodbye

Johnny Mathis

So are we over now?  
Do we just turn the page and let the story end?  
Do we just walk away?  
Just like we never meant

I know we said some things  
And now you want to leave  
But baby that's no reason  
To let a good love die

Why goodbye?  
Why must it be this way?  
So many words, so many other words  
That we could say

Why goodbye  
After all this time?  
Can't we try?  
Why goodbye?

Why can't we work it out?  
Why can't we talk it out a little more this time?  
Search though the rain and find  
A ray of hope still shines

We can't just close the door  
We're still worth fighting for  
We've come too far together  
To leave it all behind

Why goodbye?  
Why must it be this way?  
So many words, so many other words  
That we could say

Why goodbye  
After all this time?  
Can't we try?  
Why goodbye?

The road of love is never easy  
You'll get lost along the way  
But in time you can find your way through

We can make it through the bad times  
We can make it to the good times  
Through the stormy weather 'cos we belong together

Why goodbye?  
Why must it be this way?  
So many words, so many other words  
That we could say

Why goodbye  
After all this time?  
Can't we try?

We're still worth fighting for  
We've come too far together  
To leave it all behind  
Why goodbye?  
Why goodbye?
