

You Set My Heart to Music

Johnny Mathis

You set my heart to music
When you came my way
You made my life a love song
I can sing each day.

All you did was smile
Scarcely touch my hand
You hardly said a word to me
When melody swelled in me.

You set my heart to music
Can it you hear it ring
Now morning, noon and evening
All I do is sing.

And pray that someday
I'll be the composer
Who will set your heart to music too.

Now morning, noon and evening
All I do is sing.

And pray that someday
That I'll be the composer
Who will set your heart to music too.
