

Don't Let The Rain Come Down

Johnny Rivers

Stopped by your house on my way home
Knocked on your door - you were gone
I was standin' there at a quarter to three
Thinkin' woman oh woman, where can you be?

Don't let the rain come down
Don't let the rain come down
Don't let the rain come down
In this heart of mine

I try to believe love will pull us through
But do you love me, like I love you?
I try to believe everything you say
Oh, but one more storm gonna wash my heart away

Don't let the rain come down
Don't let the rain come down
Don't let the rain come down
In this heart of mine

If you been cheatin', if you been lyin'
I don't want to see
Lord, I'd rather be blind

Don't let the rain come down
Don't let the rain come down
Don't let the rain come down
In this heart of mine
