

Hillbilly Heart

Johnny Rodriguez

She's got a hillbilly heart
She's basicly simple
Naturally smart

She's got her grandmama's eyes
Beautiful features
The old fashioned kind

She's got a hillbilly heart

Easy to talk to
Right from the start

She's got a thing about that car
Loves country music
And rhythm guitar

Filled with the memory of old family ties
Grandma, babies and who up and died
She's honest and she's open, and she's country inside

She's got a hillbilly heart
She just hit thirty
She's startin' to look purdy

She's got a hillbilly heart
And I love her
White boots and all

She's got a hillbilly heart
She's got a hillbilly heart
