

# All By Myself

Johnny Thunders

I don't want to talk too much  
I just want to get to you  
I don't want to see you there  
I just want to get you there

All by myself  
Not everybody else

I don't need no wedding hall  
I just watch your rollerball  
Forget your friends and what they do  
I got to get inside of you

I don't need society  
To open up my life for me  
I don't need no audience  
To shoot you in my cunning sense

I don't think you understand  
What's that dripping in your hand  
All the things you thought you do  
You finally met your Waterloo
