

Get Off The Phone

Johnny Thunders

10 years old
Anything goes
All you ever knew was a bullshit phone
Now you're on the bells
Yacking in the booths
But where you supposed to go?
Well I just don't know so,

Get off the phone
There's nobody home
So get off the phone
Cause I don't want you
Cause I don't want you

What's that ringing sound?
Everything's going round and round
Calling everybody and their mother too
But don't call me cause I just left you so,

Get off the phone
There's nobody home
So get off the phone
Cause I don't want you
Cause I don't want you

You hung up on love when I called that night
You hung up on bells at the ring side fights
You hung up on your heart
You hung up on the world
Now you hung yourself on the telephone pole so,

Get off the phone
There's nobody home
So get off the phone
Cause I don't want you
Cause I don't want you

I don't care
What you wear
You ain't gonna go
No where

Get off the phone
There's nobody home
So get off the phone
Cause I don't want you
Cause I don't want you
