

Lonely Planet Boy

Johnny Thunders

It's a lonely planet boy
when bring me songs from all your boys well
I'm a lonely planet boy I'm trying
Baby for your love

She picks me up
She's out driving in her car
always asking me where I'm going
always telling me it's too far

How can she be driving
Out by my home
When she knows I ain't got one
I'm so all alone

It's a lonely planet boy
when bring me songs from all your boys well
I'm a lonely planet boy I'm trying
Baby for your love
