

She's So Strange

Johnny Thunders

You're so strange
It didn't start that way
But what can I say
You're strange

You're the talk the town
All the girls around
They're all staring you down
Nothing's changed

Can't find a hand but everything's a scandal
You're so strange
Can't find the time cause you're wasting mine
Nothing's changed

You're so strange
You're so strange
You're so strange
So strange

Can't find a hand but everything's a scandal
You're so strange
Can't find the time cause you're wasting mine
Nothing's changed

You're so strange
You're so strange
You're so strange
So strange
