

# Subway Train

Johnny Thunders

I can't ever understand  
Why my life's been cursed, poisoned, condemned  
When I been trying every night to hold you near me  
But I'm telling you, it ain't easy

Ever since I been riding  
Right on the subway train  
You can hear the whistle blowing  
You might think I'm going insane

And now your friends  
They're filling up my car  
But you're so busy reading Suzy says  
You can't look now  
You didn't see your lovers  
They're all dressed in rags  
You know you hid as pushing up posies  
Trying to get you fed

We was all riding  
Right on the subway train  
And you can hear the captain shouting  
He thinks I've gone insane

Cause I keep riding  
Keep on riding  
Cause I keep on riding, riding, riding  
Keep on riding

You stop and you stare  
As I'm leaving my favorite place  
We have no regards  
You can't find a trace  
You gotta get on back to daddy  
That's all it's gonna be  
He got the poison black arts of the pimps  
But don't you stop and stare

I seen them traveling  
Right on the subway train  
You can hear the captain shouting  
He thinks we've all gone insane

Cause we keep on riding, riding, riding, riding  
Cause we keep riding, riding, riding  
Keep on riding

I think I see the train  
I see you got open track
