

Bad Luck and Trouble

Johnny Winter

I believe that bad luck and trouble, man is all that joins us
I mean that bad luck and trouble, people that's all that joins
us
When my bad luck quit me, Lord my trouble just began

I'm travelin' the highway, since I was a child
Nobody see no woman man, nobody seems to care
Bad luck and trouble, man is all that joins us
When my bad luck quit me, man my trouble just began

Lord I'm sittin' down and thinkin', man I'm a long, long way fr
om home
Just sittin' down and thinkin, man I'm a long, long way from ho
me

Think about all my good times lord and my friends all want to k
now
They never hurt nobody, they never done nobody wrong

Other people won't accept me they say man leave me alone
Sittin' down and thinkin', Lord I'm a long long way from home
Thinkin' about my good times, man and my friends all want to kn
ow
Yeah

Man ain't nobody has this trouble, I gonna tell nobody else
Nobody else has this trouble, man ain't gonna tell nobody else
My whole life I'm livin' baby, gonna make it by myself
