

# Let Me In

Johnny Winter

I don't think you still love me  
If you did you sure would let me in  
Yes I don't believe you really love me baby  
If you did you'd sure let me in  
You know I'm out here in the cold and rain  
And you got me locked outta my house again

Yeah I'm out here in the weather  
Tryin' to get you to change your mind  
Yeah you got me standin' out here in the weather, little girl  
Tryin' to get you to change your mind  
I'm bound to catch the flu or pneumonia  
It's enough to make a grown man feel like cryin'

(I wish you'd let me in)

(Yeah it's cold out here)

(Yeah you got me standin' out here in the rain)

Yeah, one more time!

(Something must be wrong with this woman)

(Please let me in that door)

(Can I talk to this woman one time)

If you just let me come inside  
I'll never treat you wrong no more  
Oh, just let me come inside woman  
I'll never treat you wrong no more  
I promise you anything you want, little girl  
Yeah if you just let me in that door

Yeah let me inside, woman...
