

Love Song to Me

Johnny Winter

You don't have to be a junkie or a groupie,
You don't have to be on speed or taken down
Makes no difference, so I'm told, if you're young or if you're
old
Just have to think that I'm the coolest thing around

Keep on rockin' and rollin', don't ever settle down,
Keep my records playing all the time.
Spend your money on my concerts every time I come to town
And baby you can be a friend of mine.

I don't care if you're a Christian or a Buddhist,
It don't matter if you're yellow, black or white
Just turn on your radio, call up your favorite DJ show
And request my records every night.

Keep on rockin' and rollin', don't ever settle down,
Keep my records playing all the time.
Spend your money on my concerts every time I come to town
And baby you can be a friend of mine.

Ah-oooh!

Everybody's supposed to love their neighbour
Yeah neighbours they been all the same to me
Well if this shit is real, come on let's make a deal
Neighbour, I love you if you'll love me!

Keep on rockin' and rollin', don't ever settle down,
Keep my records playing all the time
Spend your money on my concerts every time I come to town
And baby you can be a friend of mine

Yes, baby you can be a friend of mine!
