

No Time To Live

Johnny Winter

As time begins to burn it's self upon me
And the days are growing very short
People try their hardest to reject me
But in a way their conscience won't be torn

Something's happen to me day by day
My pebble on the beach is getting' washed away yeah
Well I give it everything that is mine to give
Then I'll turn around to find that there is no time to live

So often I see the big wheel of fortune
Spinning for the man who holds the ace
There's many that'll change their places for me
But come to find I've never seen such lonely days

Something's happen to me day by day
My pebble on the beach is getting' washed away yeah
Well I give it everything that is mine to give
Then I'll turn around to find that there is no time to live
