

## No Time To Live

Johnny Winter

As time begins to burn it's self upon me  
And the days are growing very short  
People try their hardest to reject me  
But in a way their conscience won't be torn

Something's happen to me day by day  
My pebble on the beach is getting' washed away yeah  
Well I give it everything that is mine to give  
Then I'll turn around to find that there is no time to live

So often I see the big wheel of fortune  
Spinning for the man who holds the ace  
There's many that'll change their places for me  
But come to find I've never seen such lonely days

Something's happen to me day by day  
My pebble on the beach is getting' washed away yeah  
Well I give it everything that is mine to give  
Then I'll turn around to find that there is no time to live
