

# One Step at a Time

Johnny Winter

My baby told me got to take one step at a time  
You know my baby told me got to take one step at a time  
She got a crazy way of walking 'bout to drive me outta my mind

She never steps out, always walking proud  
Lady never steps out and she's always walking proud  
Well the way the woman moves makes me want to scream out loud

Well she step to the left, she step to right  
She walk all day, man she run all night  
My baby told me take one step at a time

Well she got a way of walking 'bout to drive me outta my mind  
Yes, yes, play a while  
She don't move too fast, she don't move too slow  
She always knows the way I wants to go

Baby told me got to take one step at a time  
Yes, that's what she told me  
She got a way of walking 'bout to drive me outta my mind  
Yes, that's the truth
