Serious as a Heart Attack

Johnny Winter

Hear me talking to ya baby I'm serious as a heart attack If you don't stop the thing's you're doin' I'm gonna turn your blue eyes black

You never stay at home and you Keep your business in the street You don't do no dirty clothes and there's Never nothin' here to eat

Well girl this love affair is Pretty close to ruin Every time I try and do ya, oh You say nothin' doin'

You never stay at home and you Keep your business in the street You don't do no dirty clothes and there's Never nothin' here to eat

You're the kind of woman Would feel right at home in hell Ya stick me with a pitchfork Just to hear me yell

You never stay at home and you Keep your business in the street You don't do no dirty clothes and there's Never nothin' here to eat
