

She Likes to Boogie Real Low

Johnny Winter

We went to a party but all we did was rock
I went to a party, she didn't blow her top
And then she

She likes to boogie real low and then

I'm taking my baby out to the picture show
But my baby don't wanna go there no more
She gets

She likes to boogie real low and then, yeah

Now tell me, baby what are you gonna do?
Yes, I love you because you're nice and true
And you can

She likes to boogie real low and

But I love my baby, I love her by myself
When I see her, I'm looking for no one else
You know she

She likes to boogie real low and then
She likes to boogie real low and then
She likes to boogie real low and then
