

## Still Alive and Well

Johnny Winter

Did you ever take a look to see who is left around?  
Everyone I thought was cool is six feet underground  
They tried to get me lots of times  
But now they're coming after you  
I got out and I'm here to say  
Baby you can get out too

I'm still alive and well, still alive and well  
Every now and then I know it's kinda hard to tell  
But I'm still alive and well  
Still alive and well, still alive and well  
every now and then I know it's kinda hard to tell  
Still alive and well

When I think about the past it only brings me down  
Let's make love in the grass while the sun is shinin' down  
It feels so good your long blond hair, baby  
When you're way down low, make me shake  
Make the whole earth quake, so everyone will know

Still alive and well, still alive and well  
Every now and then I know it's kinda hard to tell  
Still alive and well, still alive and well  
Every now and then I know it's kinda hard to tell  
But I'm still alive and well
