

Dead End

Johnossi

Where are you going with your wrecking machine
I just want to help when you feel abandoned
All I can do is try to poison the seed
The thought that holds you down
It multiples round you

Up in your head where are you going
Where are you going now friend
Fighting against the dead end

It sets off like a fire alarm in a city made of ice
But still you just surrender
And I can see it's got a hold on you now
The thought that holds you down now
It multiplies around you

Up in your head where you going
Where are you going now friend
You're fighting against the dead end

Up in your head where re you going
Where re you going now friend
You're fighting against the dead end

I want to help
I want to help you out
I want to help

Up in your head where are you going
Where are you going now friend
Where are you going now friend

Up in your head where are you going
Where are you going now friend
You're fighting against the dead end
