

Something Beautiful

Johnta Austin

Beautiful, beautiful
Beautiful, beautiful
Beautiful, something beautiful

No two ways about it
I can't help myself tonight
And baby I don't doubt it
I'm falling in love tonight
And it's you, gets me think maybe that you're thinking it too
But now I'm wondering what else can I do
To get a little close for comfort
Baby, you're turning me on

And the closer we get
The more attraction that I feel
And everything that you've said
Makes it clear that it's for real

And if you want me to stay
Then I don't wanna go
'Cause I know I could be
Everything that you need boy
So tell me what you need boy

Because this (this could)
Be (be the)
Start of something beautiful
Oh I (I see)
We (we are)
Making something beautiful

There's nothing better
Than I what I wanna give to you
You're gonna know that you're special
So let's (let it)
Be (be the)
Start of something beautiful

I'm talking bout me, I'm talking bout you
I'm talking bout something strong
I'm talking bout heart, I'm talking bout soul
I'm talking bout life and love

And it's rare
Something like this comes out of the way
But when it comes you know you have to be fair
Without tears, without doubt
And without fears

And the closer we get
The more attraction that I feel
And everything that you've said
Makes it clear that it's for real

And if you want me to stay
Then I don't wanna go
'Cause I know I could be

Everything that you need boy
So tell me what you need boy
