

# The Way You Love Me

Johnta Austin

My soul has never been so moved  
I know this must be love  
I look at you and see  
Everything I ever wanted  
I hope you feel exactly what I feel for you  
And I dream that the two of us forever be true

Tonight tonight take me I want it  
There is no place on Earth that I rather be  
There by your side I want and only if you want my only option  
I still want you for me  
Cause the way you love me  
Every day you love me  
You make my world go round  
And I can't explain how you make me go crazy baby  
But you do baby you do you do

There ain't nobody better  
There ain't nobody messing with you  
When it comes to make me feel needed all of the time  
There ain't nobody better  
There is no one else I want to call my own  
A love like this cannot be gone
