

## Intro

Jojo

Rest your head and close your eyes  
Everything will be okay  
For when you wake with the sweet sunrise  
It'll be a brand new day

Relax your body and let all of life's worries melt away  
For when you wake with the warm summer scent it'll be a brand new day  
Fall fast asleep and dream of me  
Whisper I love you, I'm here to stay  
For when we wake (wake, wake)
