

Running on Empty

Jojo

I'ma PYT with an attitude
Sometimes I rebound from what I'm supposed to do
But when your love conquered my heart
I know I had to have you, all of the time

See I've been gone for a while now, there's nothing I can take
The Miles keep us away [my bell]
Without you I'm running out of energy
I want you here with me
And baby w/o you I'm stalling on this road alone
When I'm gone too long I'm running on Empty without you
I'm going without cause I'm running on E
And yes I know this effect baby I'm running on empty without u

Choose the game I'm telling you
Boy in your eyes I saw the truth
Cause It was just so right
And now that I got you, I know what was missing in my life

See I've been gone for a while now, there's nothing I can take

The Miles keep us away [my bell]
Without you I'm running out of energy
I want you here with me
And baby w/o you I'm stalling on this road alone
When I'm gone too long I'm running on Empty without you
I'm going without cause I'm running on E
And yes I know this effect baby I'm running on empty without u

It's uncontrollable, I get emotional what more Can I say
Like a coffee with cream you compliment me
And I never want to be too far away

Without you I'm running out of energy
I want you here with me
And baby w/o you I'm stalling on this road alone
When I'm gone too long I'm running on Empty without you
I'm going without cause I'm running on E
And yes I know this effect baby I'm running on empty wit
