Jolly Joker & P.B.U.

Ladies and gentlemen  
Home boys and girls  
Let me introduce my self  
My name is Jolly Joker, J.J. Oker  
And these are my Plastic Beatles of the Universe  
You are asking me why Jolly Joker  
You are asking me why Plastic Beatles  
And Im asking how did you slept  
If you slept well im glad to hear that  
And if you slept bad....oh it too bad

First my catching your attention  
You wont get much of my information  
I dont have much experience with life of Beatles  
But ive dont think i have chaose badly  
Lady Bug plays drums  
And  
Little Black Head Plays the Guitar  
Eine kleine nacht musik  
Eine kleine magic night

Chorus:

Look at my head  
Half is yellow, half is black

Im Jolly Joker and these are my Plastic Beatles  
There isn't anything more magical  
Than music of Plastic Beatles of the Universe olala  
There isn't anything more free  
Than Jolly Joker  
There anything more stupid  
Than rock n roll  
Sometimes I take my base  
Remembering rokoko  
In my last life when we  
Compose a fresh song
