

# Here Tonight

Jon Allen

If you were here tonight  
I wouldn't feel so lonely  
I wouldn't need the morning light  
I'd be alright if you were here tonight

If you were by my side  
I wouldn't feel the cold wind  
The distance wouldn't be too wide  
I'd be alright if you were by my side

Stars go on shining  
But they've all lost their charm  
Though they keep on trying  
They don't move me  
Cause you can't be

Here tonight  
Here tonight  
If you were only here tonight  
The day wouldn't seem so far away

Darling don't get me wrong  
I'm getting by without you  
Most of the time I'm feeling strong  
I keep busy when the day is long

But when I close the door  
The silence that surrounds me  
Always makes me need it more  
The feeling that I've been longing for

Stars go on shining  
But they've all lost their charm  
Though they keep on trying  
They don't move me  
Cause you can't be

Here tonight  
Here tonight  
If you were only here tonight  
The day wouldn't seem so far away

Here tonight  
Here tonight  
If you were only here tonight  
The day wouldn't seem so far away
