

# Take Your Time

Jon Anderson

Rushing here and there, I'm told to slow down  
Just relax, take your time, don't move so fast, so fast  
Tempers in the air, I'm told to slow down, ease back  
By the fire, feel free, feel free  
People pushing by and why  
I don't mind, take my time, there's no race  
Life is fine, life is fine  
Come and take my hand and we'll be in a dream  
Just relax, there's no rush, take your time  
Take your time

CHORUS

Worry's on your mind, always try to find happiness  
Looking everywhere, life is but a care  
Love will come always to you  
Rushing here and there, I'm told  
To slow down, just relax, take your time, don't move so fast  
Tempers in the air, I'm told to slow down  
Ease back by the fire, feel free, feel free

CHORUS

People pushing by and why  
I don't mind, take my time, there's no race  
Life is fine, life is fine  
Come and take my hand and we'll be in a dream  
Just relax, there's no rush, take your time  
Take your time
