

## Cool Relax

Jon B.

I was just coastin' away  
An' wasn't even thinkin' of anybody  
You took my mind, sexy, no doubt  
Envisionin', turnin' you out  
An' then we caught eyes  
Ain't no stoppin' now

Burn some candlelight incense  
Taste of berry wine, just me an' you  
And all I wanna do is get with you  
One night, it could be so real  
If you give me a chance, babe  
I want to show you romance, lady

If you feel me  
Cool relax an' let your mind lay back  
An' lace your mind like a love affair  
Cool relax an' let your mind lay back  
An' let me know how you're feelin', girl

Now, you don't know what to say  
You see that I seem  
To be starin' at your body  
An' just before you could speak out  
I put one finger over your mouth  
I don't mean to be jockin'  
But baby, can I see you tonight?

Until the break of day  
We can't leave until you say  
?It's just me an' you?  
All I wanna do is get with you  
One night, it could be so real  
If you just give me a chance, baby  
I wanna show you romance, lady

If you feel me  
Cool relax an' let your mind lay back  
An' lace your mind like a love affair  
Cool relax an' let your mind lay back  
An' let me know how you're feelin'

Cool, just relax, baby  
Cool, just relax, baby  
Cool, just relax, baby  
Cool, just relax, baby

If you feel me, relax, lay back  
If you feel me, relax, lay back  
If you feel me, relax, lay back  
If you feel me, relax, lay back

If you feel me, relax, lay back  
If you feel me, relax, lay back  
If you feel me, relax, lay back
