

## One More Dance

Jon B.

Let me be the first to say that you turn me on miss lady  
You're dancing like it's your favorite song now  
Must say you got a sexy way  
Those turns and spins make my head go round  
Make me wanna sit my champagne down  
And celebrate the fact that we're here  
I'm here with you, you make me look good girl  
So strap on your dancing shoes and move and feel free  
There's just no way that his jam can lose  
That's why I'm aksing you to give me

One more dance, one more dance  
One more chance, one more chance

Tonight is kinda crowded baby  
I'm faded cause I'm so high on you  
Intoxicated, stuck in the groove  
And I know you feel it too  
It's hard to believe that it feels so good  
So girl, you do it like I know you should  
Dance again cause we got this down  
Never stop cause this love we feel is special  
So lets go all night cause truly I feel there's nothing better  
There's just no way that this can lose  
That's why I'm asking you to give me one

One more dance, one more dance  
One more chance, one more chance
